

## **ACS and Castile Compliance Partner to Meet Financial Industry Demand for Advanced Compliance Risk Management**

BRIGHTON, MA, (BUSINESS WIRE) – [Automated Compliance Solutions \(ACS\)](#), the leader in compliance risk management software-as-a-service, today announced a partnership agreement with [Castile Compliance Services](#), an innovative financial services regulatory solutions consulting group. In today's new era of heightened reputational risk and increased investor demands for compliance operations excellence, Castile Compliance will use ACS' Compliance Risk Management software service to implement and manage compliance programs by automating and documenting the policies and procedures of Hedge Funds, Broker-Dealers, Private Equity Firms, Mutual Funds and Investment Advisers.

"Castile Compliance provides a suite of [compliance services](#), including Policies and Procedures Updates and Outsourced Compliance Management, designed to protect a firm's brand and reputation," said [Bill Cathriner](#), Castile Compliance's managing director. "ACS' technology allows us to upgrade a firm's compliance operations from outdated manual methods to the automated procedures investors and regulators are demanding."

Castile Compliance will configure ACS's software for each of its clients to match the firm's unique policies and procedures. ACS provides Castile Compliance with the power to quickly and cost effectively implement the customized compliance risk programs its clients must have today and immediately make updates as new regulations and operational procedures necessitate.

[John Logan](#), ACS' president, explains that "The power of the ACS software combined with the expertise of Castile Compliance is a perfect solution for both unregistered hedge funds that must put in place an effective compliance program before registering and financial institutions facing today's complex compliance risk management challenges that can only be solved by automation."

### **About Automated Compliance Solutions**
